

Fundada en 1986, CARVI cuenta con una contrastada experiencia en el campo del herraje para la construcción. Su reconocido prestigio le ha llevado a una posición de liderazgo en el sector de la manillería para puertas y ventanas.

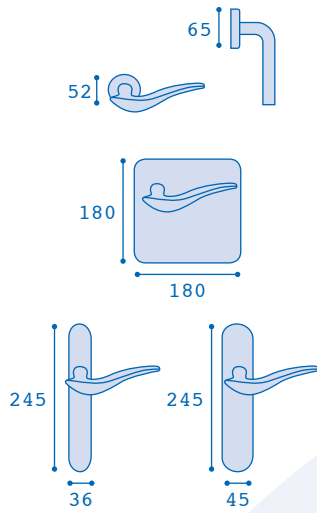

Sobre estas dos bases, experiencia y prestigio, esta empresa ha sabido adaptarse con el paso del tiempo a las siempre cambiantes exigencias del mercado, cubriendo así las necesidades de sus clientes y cumpliendo con su principal objetivo: la elevada satisfacción de los mismos.

Founded in 1986, CARVI has extensive experience in the field of brass and steel fittings for the construction industry. It is a leader in the production of lever handle and window fittings due to its recognised quality.

It is upon these foundations, experience and quality, that this company has adapted over time to the ever-changing demands of the market, recognising its costumers needs and fulfilling its principal objective: costumers satisfaction.
